PROFILE

About Me I am Abbas Omer Hassan Suliman, a passionate front-end developer specializing in creating engaging and responsive user interfaces using React, JavaScript, and modern web technologies. With a strong background in problem-solving and a commitment to continuous learning, I enjoy contributing to open-source projects and experimenting with new tools and design patterns. Fluent in English, Arabic, and Hausa, I thrive in collaborative environments and am driven by the desire to build innovative and user-centric solutions.

WORK EXPERIENCE

- Front-End Developer (Freelance) Remote January 2024 – Present Developed responsive and user-friendly web applications using React, JavaScript, and TailwindCSS. Collaborated with clients to create customized solutions, focusing on performance optimization and modern design principles. Built reusable React components and integrated API functionalities for dynamic content. Managed version control and project collaboration through Git and GitHub. Open-Source Contributor Remote October 2023 – Present Contributed to various open-source projects, improving codebases and collaborating with international developers. Resolved issues and implemented new features in web development repositories. Actively participated in discussions and feedback loops to enhance software quality and user experience.

2024 - 2025
